DESCRIPTION

To pick up ultra-small components and put them in the right place you simply need to have the right tools. One such are tweezers for SMD components, which will allow you to handle even 0603 components and with a little practice, even smaller ones. Of course, tweezers are ESD safe so you don't have to worry that something will happen to your components. This set consists of 6 tweezers with which you will be able to place all types of SMD components.
