

PRODUCT DATASHEET

Soldering Station With Hot Air

555021

This Soldering Station with Hot Air combines a powerful 50W soldering iron and 450W hot air for efficient soldering and desoldering.

Full product documentation, files and tutorials: solde.red/555021

CORE ATTRIBUTES

SKU 555021

WEIGHT 2100 g

BARCODE 100374

DESCRIPTION

Soldering station with hot air is a combination that will solve all the problems regarding soldering and desoldering, whether it is THT or SMD components. The 50W soldering station has enough power to solder the components with the highest thermal mass, and comes with a pointed tip. Hot air will be useful for soldering and desoldering SMD components. It comes with three extensions with which it is possible to select the width of the hot air flow. With the station also comes a stand for both the soldering iron and for hot air.

TECHNICAL DETAILS

- **Maximum hot air power:** 450W
- **Hot air temperature range:** 100°C - 500°C
- **Hot air flow:** 120L/min max.
- **Maximum power of soldering iron:** 50W
- **Manufacturer and model:** Gordak 968
- **Input voltage:** 230V
